Education

University of California, Los Angeles (UCLA) *Fall 2018 – Spring 2022*

B.S. Computer Science Major, Statistics Minor

- **GPA:** 3.87 **Societies:** Tau Beta Pi President, Upsilon Pi Epsilon Mentorship Chair
- **Relevant Courses:** Machine Learning, Data Science Fundamentals, Algorithms and Complexity, Operating Systems, Mathematical Statistics, Data Structures, Databases

Experience

Software Developer Engineer Intern, Amazon *June 2021 – September 2021*

- Created Java interface that lets clients validate their service inputs with their own custom configurations, fixing a Severity 1 issue that had led to hours of shopping downtime
- Onboarded senior engineers and their teams onto my interface, which is used in 1,000,000+ service creations and updates weekly
- Constructed an internal toolpage that lets clients easily track and compare the entire revision history of their service creations

Python Programmer Intern, UCLA Center of Health Policy Research *May 2019 – Nov 2019*

- Enhanced CalSIM, a [micro-simulation](#) used by the California government that predicts how individual and business insurance plans affect medical costs
- Rebuilt the entire documentation website and created a script that automatically updates it
- Discovered a bottleneck that took more than 50% of runtime and proposed parallelization solutions
- Refactored the entire codebase from **Python 2** to **Python 3**

Data Journalism Software Engineer and Assistant Editor, The Daily Bruin *October 2018 - Present*

- Managed a team of more than 25 data journalists to write 7 articles as section editor for 1 year
- Compared college [actions](#) and simulated hospital beds [needed](#) during the COVID-19 outbreak
- Collected more than 1.6 million data points using **Beautiful Soup**, **Selenium**, and **R** to observe [how quickly classes fill up during enrollment time](#), reaching over 2,000 readers in 1 week
- Designed a responsive [game](#) with **React**, **d3.js**, and **Flask** examining UCLA's waste breakdown

Webmaster, Tau Beta Pi *June 2019 – Present*

- Maintained a [website](#) and mailing server for members using **Django**, **Postfix**, and **Docker**
- Improved the website by adding officer photos, an events calendar, documentation, and other QOL

Projects

Datafest, UCLA Team Stackers *April 2021*

- Analyzed possible association between state cannabis legality and drug misuse through dynamic [map](#), winning [Best Visualization](#) in yearly UCLA statistics competition with over 100 contestants
- Project went on to win third place in ISI Florence Nightingale Prize for Data Visualization

Flux, UCLA Creative Labs *Jan 2019 – June 2019*

- Built a social media [site](#) that taught over 100 users good UX practices with **Firebase** and **React**
- Implemented posting and notifications in collaboration with a design team through **Figma**

Skills

- **Languages:** C++, Python, Java, HTML/CSS, JavaScript **Frameworks:** d3.js, React.js, Django
- **Technologies:** git, bash, Unix, Beautiful Soup, Selenium, Firebase, Docker, SQL, Spring
